Shepherd Wagons have been a colorful part of the western landscape since the 1880s when large bands of sheep fed on the abundant grass and sagebrush of mountainous regions. During the yearly grazing cycle, sheep and their herders often moved hundreds of miles from the winter range of lower elevations to the mountain summer range.

### **Sheep Wagon Plans | happyhounds.pridesource**

Yes, these wagons are the original tiny homes - built to house the sheep herder trailing his sheep for hundreds of miles from summer to winter range, or the nomadic gypsy living on the road. And today a Sedar Ayres wagon adds a touch of history and romance to your modern lifestyle and becomes a piece of art that will last for generations to come.
