•The mental status examination describes the sum total of the examiner[s observations and impressions of the psychiatric patient at the time of the interview. •Whereas the patient's history remains stable, the patient's mental status can change from day to day or hour to hour.

### Understanding the Mental Status Examination

A mental status examination, just like a physical examination, is an intrusion on the patient's rights and should not be conducted against the patient's will. Before a physician performs a mental status examination, s/he must explain the procedure to the patient and ensure the patient understands that exam results will be documented.

### Mental Status Exam (MSE) — Factors and Definitions ...

The structure of the history and mental status examination presented in this section is not intended to be a rigid plan for interviewing a patient; it is meant to be a guide in organizing the patient's history prior to its being written. A standard format for a psychiatric history is presented in Table 7.1-1. Each topic is discussed below.

### Psychiatric History and Mental Status Examination

The mental status examination (MSE) is a component of all medical exams and may be viewed as the psychological equivalent of the physical exam. It is especially important in neurologic and psychiatric evaluations. The purpose is to evaluate, quantitatively and qualitatively, a range of mental functions and behaviors at a specific point in time.
